CUSTOM WEDDING WEBSITE DESIGN

Designed just for you

Thank you for your order! We make a new wedding website design for you: your own opening, artwork, colors and type. Then you fill it in yourself in our editor.

What you bought

- A new wedding website design made for you: the opening your guests tap first, the artwork, colors and fonts. You do not need to buy one of our ready designs as well.
- Everything our ready designs include: Home, Our Story, Details and RSVP pages, the private online editor, online RSVP with a downloadable guest list, a QR code, an optional guest password and a thank-you page for after the wedding.
- **2 rounds of changes** to the design.
- Your website stays online until 12 months after your wedding date.

Your next step: tell us your idea

We message you on Etsy within 24 hours of your order. You do not have to wait: you can reply in the Etsy conversation of this order right away with:

- Your wedding date and the feel you want (for example classic, romantic, garden, coastal)
- Two or three colors you love, and anything you do not want
- Pictures that inspire you (a share link to photos or a Pinterest board is fine)
- What guests should open first, if you have an idea (an envelope, a card, a book …)

What happens next

1. We send you the first version **within 3 days of receiving your answers**, in the Etsy conversation.
2. You tell us what to change. 2 rounds of changes are included: please send all the changes for one round together in one message. Each further round is 500 TL, through our Extra design revision listing.
3. When you are happy, we send you your start link: enter your Etsy order number, your e-mail and your first names and choose your web address. Later, the same order number and e-mail open your editor on any phone or computer.
4. Add your names, date and photos in the editor (or add our setup service), and publish.

Good to know

- The artwork is created with the help of AI image tools from our own descriptions, then selected, refined and built into your website by us.
- Your design is yours alone: we never sell it, or a recolored version of it, to anyone else.
- Your names, photos and texts are never part of the artwork: you can change them in your editor at any time.
- Not included: entering your details for you (our setup service does that), printing or shipping anything, and a custom domain (yournames.com).

Returns

No returns, exchanges or cancellations once we have started your design. If something on your website does not work as described, message us on Etsy and we will fix it.

Questions or a problem?

Message us on Etsy (we reply within 24 hours) or e-mail bkestudio@gmail.com. Please include your Etsy order number.
