WEDDING WEBSITE SETUP SERVICE

We set it up for you

Thank you for your order! You send us your details, we enter them in your wedding website's editor, and you only check and publish.

What you bought

One round of setup for one wedding website from our shop. We enter the details you send us in your website's editor: names, date and venue, the order of the day, your story, up to 5 photos (each cropped to its frame), your RSVP page with up to 3 questions, and the headings and wording you ask for.

This service does not include a design. If you have not bought one of our wedding website designs yet, please buy the one you love from our shop: the setup works with any of them.

Your next step: send us your details

We message you on Etsy within 24 hours of your order. You do not have to wait: you can reply in the Etsy conversation of this order right away with:

- Your first names as they should appear, and your Etsy order number for the design (if you bought it in a separate order)
- Wedding date, ceremony time and time zone
- Venue name and address (and a map link if you have one)
- The order of the day, your story, questions and answers, dress code, travel and registry links: whatever you want to show
- Your RSVP deadline and up to 3 questions for your guests (for example a meal choice)
- Any headings or wording you want changed
- Up to 5 photos as a share link (Google Drive, Dropbox or iCloud), and tell us which one goes where (portrait, 3 story photos, venue).

When it is ready

- We set up your website **within 3 days of receiving everything** and tell you in the same Etsy conversation when it is ready (with your private edit link if we started the website for you).
- Your website stays a private draft. Open your editor, check every page, change anything you like yourself, and tap **Publish** when you are happy.
- If you already started your website, we set it up in that same website: your edit link, and your Etsy order number with your e-mail, keep working. We never ask you for your edit link.

Good to know

- One purchase = one round of setup for one website. After that you can change everything yourself, as often as you like; if you want us to make another round of changes for you, that is a new purchase of the setup service.
- We enter the words you send us; we do not write your texts. The design's artwork, colors, fonts and layout stay as designed.
- If your website is already published, name and date changes we make count toward the same 3 changes after publishing as your own (typo fixes and moving the date by up to 7 days stay free).

Returns

No returns, exchanges or cancellations once we have started your setup. If something we set up does not match what you sent us, message us on Etsy and we will fix it.

Questions or a problem?

Message us on Etsy (we reply within 24 hours) or e-mail bkestudio@gmail.com. Please include your Etsy order number.
